

Russian Battle Tank T-90

Der T-90 ist der modernste Kampfpanzer der russischen Armee. Er verfügt über eine 125 mm Glattrohrkanone die verschiedene Munitionssorten und auch Lenkflugkörper verschleßen kann. Es werden 45 Schuss Munition mitgeführt, davon 22 im Magazin des automatischen Laders. Als Ursprung gilt der Kampfpanzer T-72 dessen letzte Variante so stark überarbeitet wurde, dass eine neue Bezeichnung gerechtfertigt war. Die vorteilhafte niedrige Silhouette blieb erhalten und als zusätzlicher Schutz wurde die Reaktivpanzerung vom Typ Kontakt-5 und das Selbstschutzesystem TShU-1 Schtora-1 angebaut. Letzteres soll anfliegende Lenkflugkörper täuschen. Die ebenfalls verbesserte Feuerleitanlage erlaubt nun schnelleres und genaueres Schießen, zunehmend kommen auch Wärmebildgeräte zum Einsatz. Das leistungsstarke 12-Zylinder-Diesel Triebwerk mit 735 kW (1000 PS) versorgt dem T-90 eine deutlich erhöhte Beweglichkeit. Nach wie vor ist der typische Bergebalken am Heck russischer Kampfpanzer vorhanden, mit dessen Hilfe ein Selbstbergen möglich ist. Gewässer mit bis zu 4,5 m Tiefe können nach einer kurzen Vorbereitung durchfahren werden.

In dem relativ engen Panzer sitzt der Fahrer mittig im Fahrgestell, der Kommandant rechts und der Richtschütze links im Turm. Der Kommandant bedient zusätzlich das 12,7 mm NSV Maschinengewehr. Parallel zur Bordkanone ist noch ein 7,62 mm PKT Maschinengewehr eingebaut. Nachdem es über Jahrzehnte im russisch/sowjetischen Panzerbau immer zwei Panzertypen in der Produktion gegeben hatte, entschied sich die Armeeführung gegen den T-80 und für den T-90, welcher seit ca. 1995 gebaut wird. Neben Russland wird der T-90 unter anderem auch von Algerien und Indien eingesetzt. In Indien wird er mittlerweile in Lizenz produziert.

Russian Battle Tank T-90

The T-90 is the most up-to-date battle tank in the Russian army. It has a 125 mm smooth bore cannon capable of firing various types of ammunition as well as guided missiles. 45 rounds of ammunition are carried, 22 of which are in the magazine of the automatic loader. It derives from the T-72 battle tank, the latest variant of which was so thoroughly modified that it justified a new designation. The advantageous low profile remained and by way of extra protection it was equipped with type Kontakt-5 reactive armour and the self-protection system TShU-1 Schtora-1. This latter should fool oncoming guided missiles. The likewise improved fire control system now provides faster and more accurate firing. Increasingly heat seeking missiles will be used. The powerful 735 kW (1000 hp) 12-cylinder Diesel engine gives the T-90 clearly improved manoeuvrability. This Russian tank still has its typical rear unditching beam to enable self recovery. After a brief preparation it can ford water up to 4.5 m deep. In this relatively narrow tank the driver sits in the centre front, the commander to the right and the gunner to the left of the turret. The commander also operates the 12.7 mm NSV machine gun. Parallel to the cannon there is also a 762 mm PKT machine gun. After two types of tank had been in continuous production for decades in the Russian/Soviet tank industry, the army command decided against the T-80 and for the T-90, which has been built since about 1995, in addition to Russia the T-90 has been used by Algeria and India among others. In India it has in the meantime been produced under licence.

This Model Kit has been subject to extensive quality and weight checks during the manufacturing process to ensure it leaves our warehouse in perfect condition. We are only able to process applications for missing parts if the following procedure is followed. In all cases the following will be required before we are able to process any request: Original receipt (proof of purchase) original instruction sheets (will be returned) and the bar code cut out of the box. We may not be able to process requests for products that have been discontinued for more than 24 months. Products that are returned directly to us without prior authorisation by a company representative will not be accepted and returned to sender. Replacement parts for conversion or spares will continue to be available however they will incur a handling charge. Please write to: Department X Revell GmbH, Henschelstr. 30-36, 32257 Bielefeld.

This direct Service is only available in the following markets: Germany, Benelux, Austria, France & Great Britain, Revell GmbH, Orchard Mews, 16c High Street, Tring, Herts., HP23 5SL, Great Britain.

For all other markets please contact your local dealer or distributor directly.

Afin de vous donner entière satisfaction et pour nous assurer que tous les éléments nécessaires au montage de votre maquette sont présents dans la boîte, cet article a subi dans son intégralité divers contrôles qualitatifs ainsi que des contrôles de poids.

Si toutefois vous deviez nous faire part de certaines réclamations, nous vous prions de bien vouloir nous adresser à votre revendeur habituel, muni de la notice de montage, du code EAN découpé sur la boîte, ainsi que de votre ticket de caisse.

Le SAV ne sera assuré que pour les articles ayant été acquis depuis moins de 24 mois.

Le SAV se fera assure que pour les articles ayant été acquis depuis moins de 24 mois.
Les places de recharge utilisées pour la transformation de maquettes pourront être obtenues
en pré-paiement. Dans le cas où vous n'obtenez pas satisfaction, vous pouvez vous adresser
directement à notre service SAV à l'adresse suivante: REVELL GmbH, Abteilung X,
Henscheistraße 20, D-32257 Bünde ow Revel GmbH, 14.B, rue du Chapeau Rouge,
F-21000 Dijon, France.

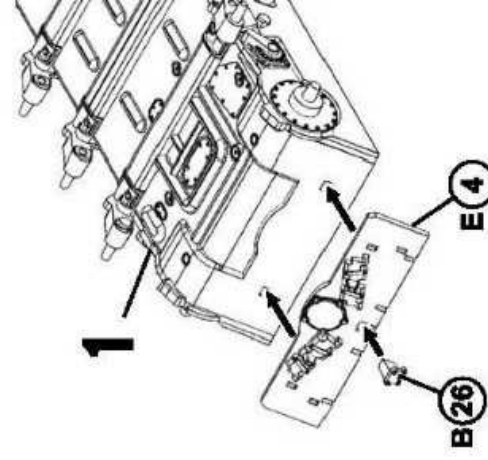

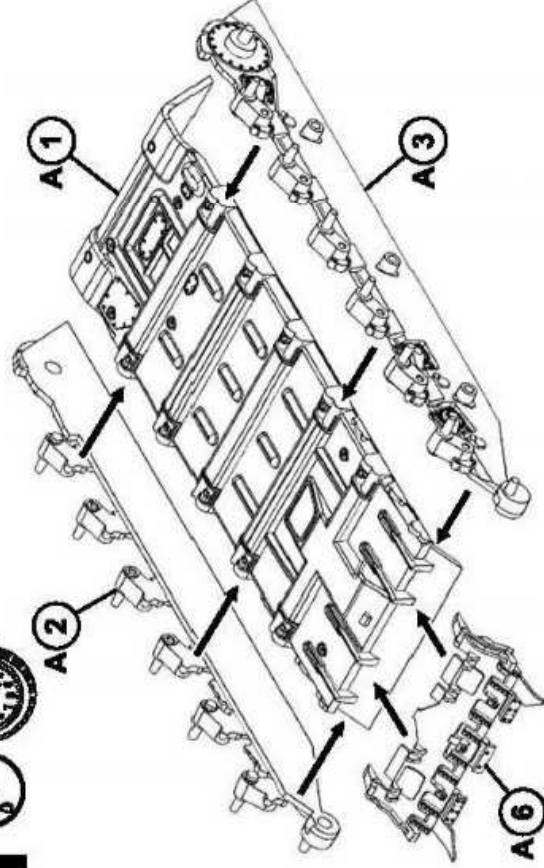

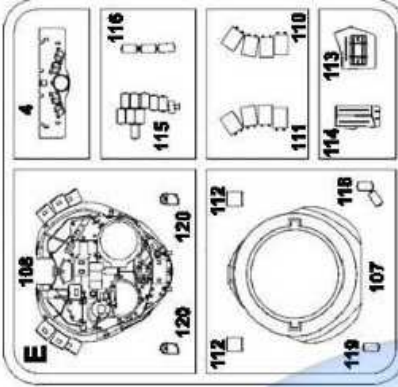

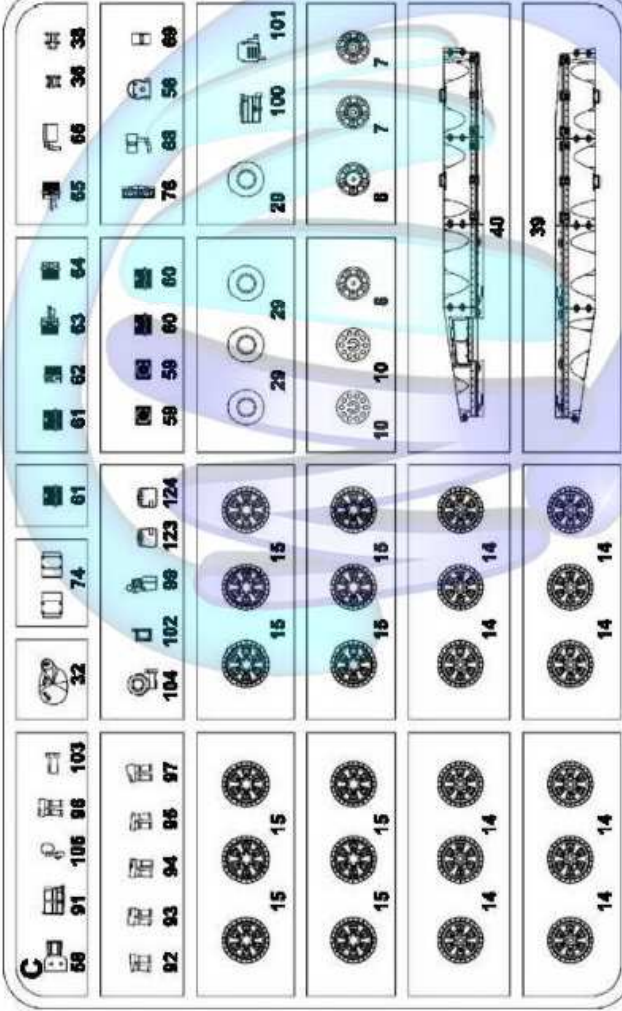

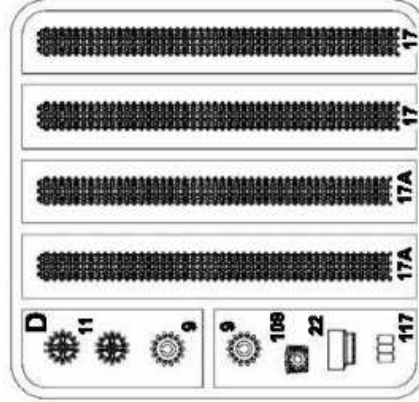

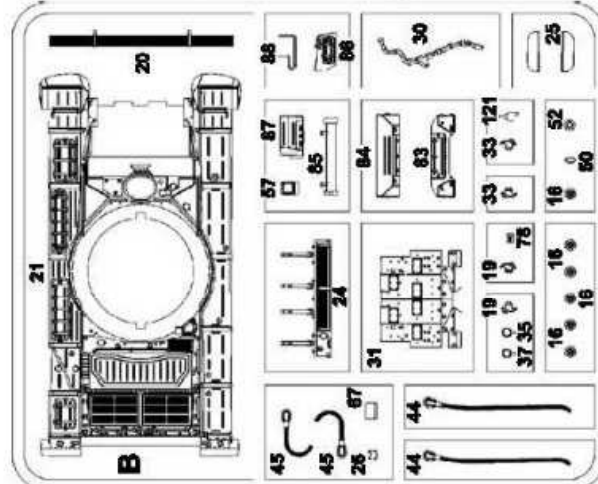

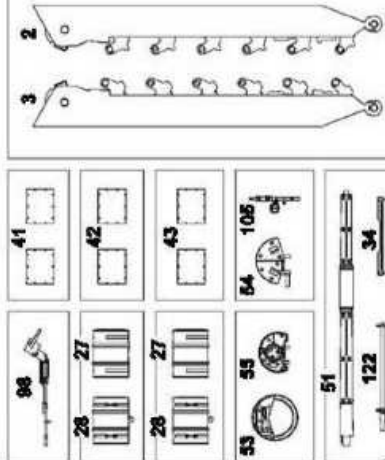

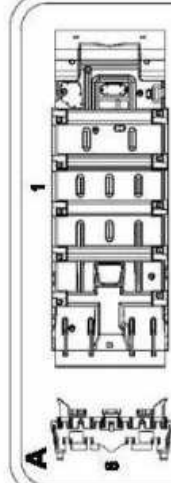

F-21000 Dijon, France.
Pour tous les autres marchés, merci de prendre contact avec votre détaillant ou distributeur.

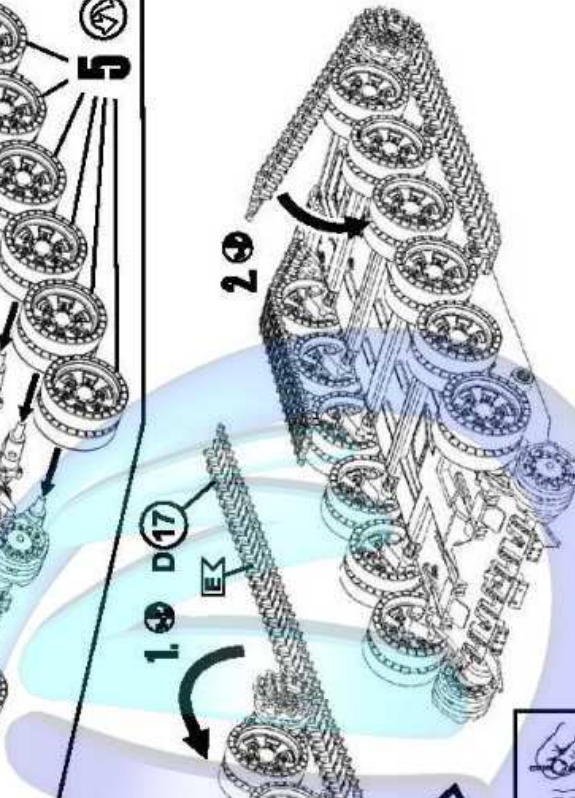

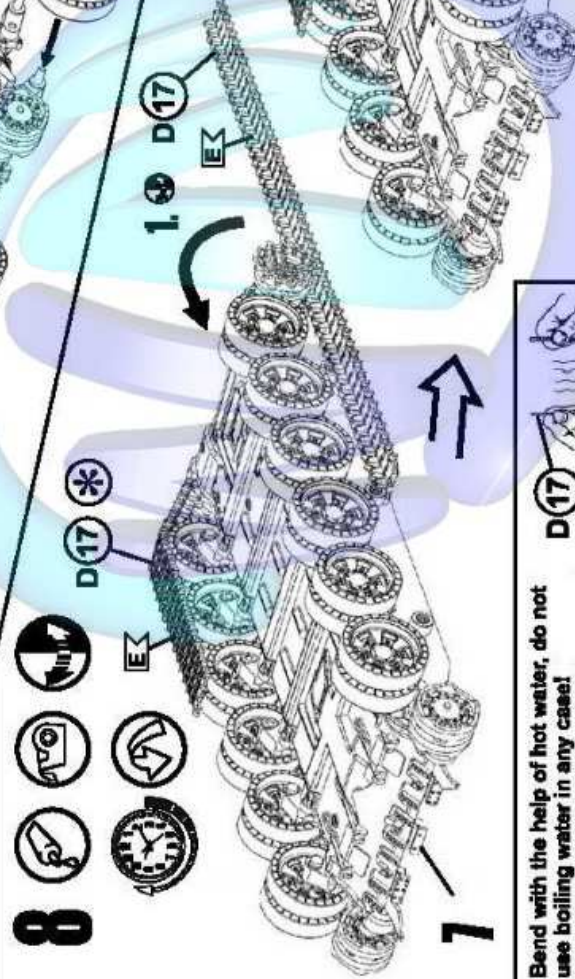

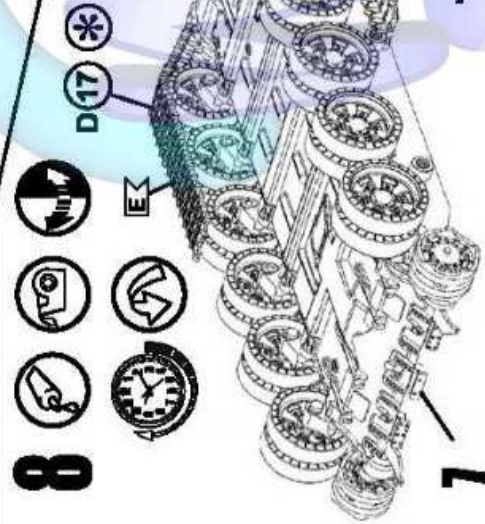

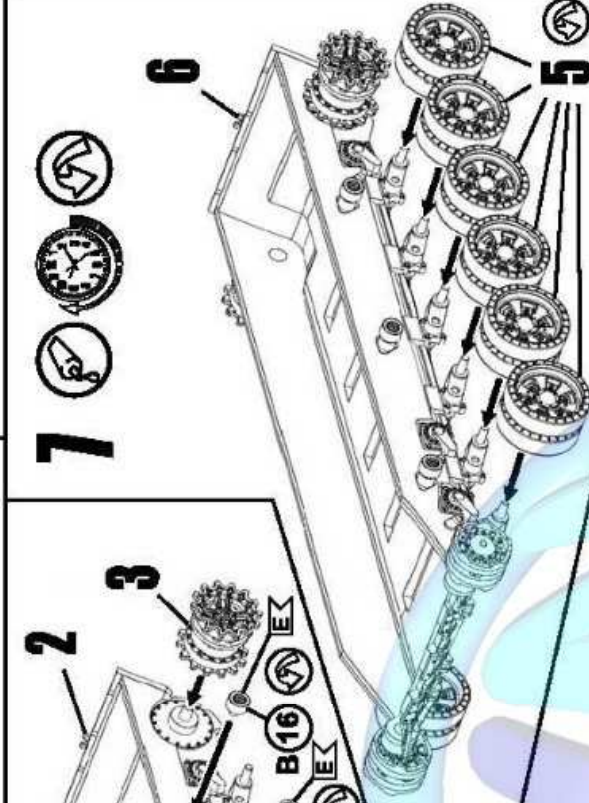

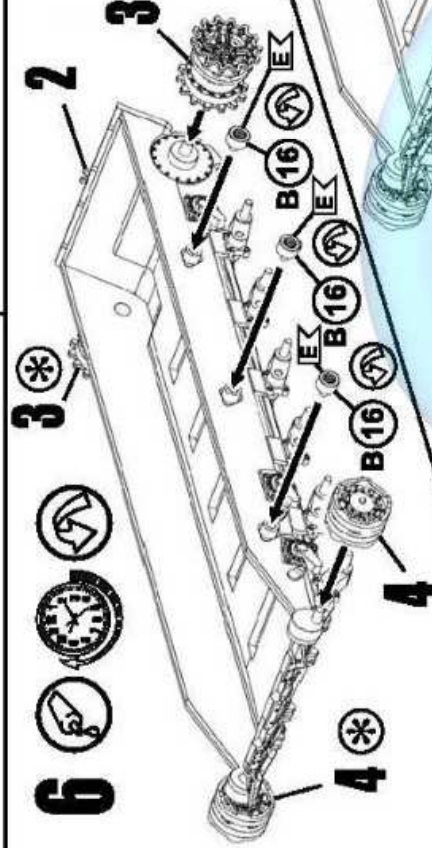

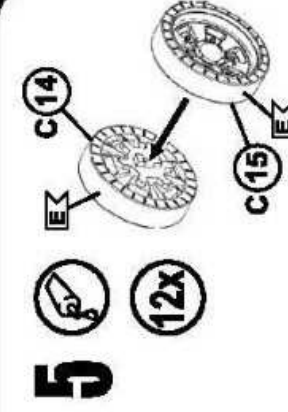

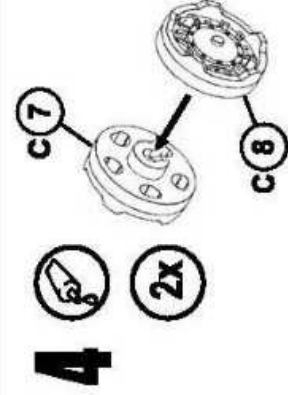

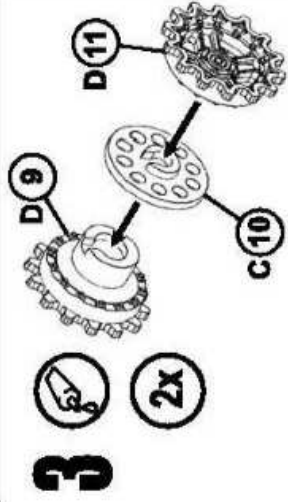

Die bouwtoets werd verscheidene malen volledig gecontroleerd op kwaliteit en gewicht. Klachten in behandeling werden gebouwd uit de volgende delen:

- uit de laatste EAN met een garantie van twee maanden; Wij verzekerden dat wij alleen garande kunnen geven voor huidige artikelen die binnen een periode van de laatste 24 maanden zijn gekocht. Onvolledig ingesonden machines kunnen niet in behandeling worden genomen. Onderdelen voor ombouw kunnen tegenwoordig niet in behandeling gekocht worden.

Ons adres is: Revell GmbH, Afdeling X, Heerschstrasse 20-30, 32257 Almdorf, Duitsland. Deze directe verkoop geldt alleen voor de volgende landen: Duitsland, Benelux, Oostenrijk, Frankrijk, Groot-Brittannië.

Klachten afkomstig uit overige landen worden via de eventuele lokale vertegenwoordigers van Revell afgehandeld. Wij verzekerden U contact op te nemen met uw winkel.
