

'32 FORD 3-WINDOW COUPE

KIT 7605

1/25 SCALE

ESCALA 1/25

1/25 ECHELLE

85760510200

No other car says Street Rod more than the '32 Ford. Available in a number of body styles, one of the most popular is the 3 window coupe. The small, sporty body style was originally designed for businessmen as an inexpensive, reliable way to move around while selling their goods. Those same inexpensive coupes are now being turned into modern pieces of rolling art. The only factor in determining the look of the finished rod is imagination.

Today's rods feature classic bodies sitting on modern frames, with up-to-date components. Gone are the original buggy springs and friction brakes, in their place you'll find state of the art coil over shocks and disk brakes. The narrow wheels and tires of the

30's have given way to up-to-date tires mounted on aluminum wheels, giving the car a nose in the weeds stance.

While some rodders continue to use original flathead V-8's, most prefer to replace them with newer versions for more performance and better over the road reliability. The old 3 speed crash box transmissions are replaced with overdrive automatics, and everything is dressed up with billet or chrome trim.

The interiors are something that the car's original designers couldn't have even imagined! Sculptured interiors covered with leather or other fabrics in a rainbow of colors have replaced the old cardboard and mohair of the original.

READ THIS BEFORE YOU BEGIN

- Study the assembly drawings.
- Each plastic part is identified by a number.
- In the assembly drawings, some parts will be marked by a star (*) to indicate plated plastic.
- Scrape plating from areas to be cemented.
- Check the fit of each piece before cementing into place.
- Do not use too much cement to join parts.
- Use only cement for polystyrene plastic.
- Models may be painted to match photos on box.
- Allow paint to dry thoroughly before handling parts.
- Scrape paint from areas to be cemented.
- For better paint and decal adhesion, wash the plastic parts in a mild detergent solution. Rinse and let air dry.

LEA ESTO ANTES DE EMPEZAR

- Estudie los dibujos de ensamblaje.
- Cada pieza de plástico se identificará por un número.
- En los dibujos de ensamblaje, algunos números de las piezas están marcados con una estrella (*) para indicar plástico laminado.
- Raspe el laminado de las superficies que serán pegadas.
- Verifique que cada pieza encaje bien antes de posición.
- No use demasiado pegamento para unir las piezas.
- Use únicamente pegamento para plástico de poliestireno.
- El modelo puede pintarse de acuerdo con las fotografías de la caja.
- Permita que se seque la pintura completa mente antes de tocar las piezas.
- Raspe la pintura de las superficies que serán pegadas.
- Para una mejor fijación de la pintura y de las calcomanías lávese las piezas plásticas en una solución de detergente suave. Enjuague y déjese secar al aire.

LISEZ CE QUI SUIT AVANT DE COMMENCER LE MONTAGE

- Etudier les schémas d'assemblage.
- Chaque pièce plastique porte un numéro d'identification.
- Sur les schémas d'assemblage les pièces dont le numéro comporte une astérisque (*) sont en plastique chrome.
- Grattez le chromage sur les surfaces à coller.
- Contrôlez que chaque pièce soit bien cintrée avant de la coller à sa place.
- N'utilisez pas trop de colle pour réunir les pièces.
- Utilisez uniquement une colle spéciale pour polystyrène.
- Le modèle peut être peint conformément aux photos surboîte.
- Laissez sécher la peinture complètement avant de manipuler les pièces.
- Grattez la peinture sur les surfaces devant être collées.
- Pour assurer la meilleure adhésion possible de la peinture des décalomnies, lavez les pièces de plastique avec une légère solution savonneuse. Rincez et laissez sécher à l'air.

DECAL PLACEMENT

Revell-Monogram wishes to thank Pete and Jakes Hot Rod Parts, and Mr. Rich Hart of Glendale, CA for their valuable assistance on this project.

- REMAINING PARTS MAY BE DISCARDED.
- SE DÉFAIRE DES PIÈCES RESTANTES.
- LAS PIEZAS QUE SOBREN PUEDEN DESCARTARSE.

DECAL APPLICATION INSTRUCTIONS

1. Wash plastic parts in mild detergent solution. Rinse and let dry.
2. Cut desired decal from sheet.
3. Dip decal in water for a few seconds.
4. Place wet decal on paper towel.
5. Wait until decal is movable on paper backing.
6. Place decal in position on model, face up and slide backing away.
7. Press out air bubbles with a soft damp cloth.
8. Milkyness that may appear is for better decal adhesion and will dry clear. Wipe away any excess adhesive.
9. Do not touch decal until fully dry.
